

We are overjoyed to see that our ministry programs are reaching capacity at Pine Orchard Camp and there is an obvious expression for more accommodations for these programs. Our camp's zoning ground coverage restricts simply adding more buildings; however, the White Cottage Replacement project represents our goal to expand our existing building lot coverage through a multi-level facility built within its current foot-print of 600 square feet.

The rebuild of the White Cottage includes:

- Installing a basement with an exterior walk up to ground level
- A main floor with access to the ground level
- 2nd level with exterior stairs to ground level

We envision each floor utilizing the full 600 square feet of the existing cottage footprint by minimizing the use of interior load-bearing walls or stair wells. Our expectation is to use all three levels to accommodate our camp ministries such as:

- Provide improved accommodations for ministry team leadership and/or Family Camp Evangelist on the upper level. This location offers some privacy and seclusion from the campers during ministry preparation.
- The basement will have a walk up with large windows for light and can offer accommodation for our camps.
- Future potential for seasonal or year-round residence to Camp Grounds Manager on main level, with full vision of front gate access. Until a residence is needed for our Grounds Manager, this area will be available for camp accommodation use.

Our goal of \$100,000 to start this rebuild is to get the building to a weather proof state. A second phase will be required to finish the interior of the building. Once the exterior is finished, we plan to get the upper level ready for use.

During the past two years, your generous support for our camp has produced a surplus in income to operating expenses. Your Board of Directors has directed a portion of this surplus to the White Cottage Replacement project bringing the total raised to \$90,000.00. Our Fall Fund Raising Dinner & Auction on September 28th is being held to raise funds for this project. \$10,000 will enable us to start the rebuild and another \$20,000 will allow us to prepare the inside of this 1,800 square foot building for immediate use. Your support will help us to move this project forward.

Please consider giving a gift or pledge of any amount to POC Building – White Cottage Fund
